

## **SHELDON DATTENBERGER, P. ENG.**

Sheldon is one of the managing partners of Scheffer Andrew Ltd., a mid-size consulting engineering firm that specializes in planning and engineering for Land Development, Transportation, and Municipal work.

Sheldon graduated from the University of Alberta in 1992 with a B. Sc. in Civil Engineering and has since lived in Medicine Hat, Alberta. He worked a short period with HBT Agra (now AMEC) out of school before moving to Scheffer Consultants Ltd. (now Scheffer Andrew Ltd) for approximately 3-1/2 yrs. He then worked for the City of Medicine Hat over the next 7 year in a number of roles including Municipal Works Superintendent, Municipal Works Engineer, and Manager of Engineering Services.

Sheldon left the public sector in 2001 to work in the Oil and Gas industry to manufacture oil and gas surface production facilities with Bromley Mechanical Services. In 2005, Sheldon returned to Scheffer Andrew Ltd. to resume his passion in land development and transportation.

Sheldon has been fortunate to work on both public and private sides of the development industry as an approving agent and consultant. This experience provides him opportunity to anticipate the issues with Municipal authorities from a first hand perspective to assist clients with the approval process.

Sheldon has been an active long standing volunteer with APEGGA and recently completed his role as the Medicine Hat Branch Chair.

Sheldon recently facilitated the start-up of the Medicine Hat chapter of UDI, and is currently the acting Chair of the chapter.

Sheldon enjoys spending time with at home or traveling with his wife and 2 children, and he still enjoys keeping active with a number of sporting activities including volleyball, hockey, squash, golf, water skiing, hiking and running.
