

JAMES FURLONG

James Furlong is a Principal and Practice Leader with Stantec's Calgary Buildings Engineering team. James' practice focuses on Sustainable Solutions, a multidisciplinary group of engineers and technologists with a focus on sustainable, energy efficient developments for the built environment.

James has nine years of sustainable consulting experience and graduated from Thompson Rivers University with a diploma in Building Technology, specializing in mechanical technology and building science. He is currently an energy and LEED consultant for several health care, recreation, education, and commercial office projects throughout North America, has participated in numerous LEED Platinum and carbon neutral projects, and is active in the energy retrofit industry as a Certified Energy Manager.

James also serves as a Director of the Alberta Chapter of the Canada Green Building Council (CaGBC), is a board member of the Alberta Energy Efficiency Alliance, and participates in the CaGBC's Technical Advisory Group for Sites, Water and Materials.
