

**ALAN E. THOMAS P. ENG.**

Al graduated with a B.Sc. in Electrical Engineering from the University of Alberta in 1976. He is a member of A.P.E.G.G.A and is a past member of executive committee UDI Greater Edmonton Chapter and UDI Alberta. He began his career with Calgary Power Ltd. as Distribution Engineer, primarily responsible for projects in Calgary Power's St. Albert Division Service area. In 1979 he left Calgary Power and started a consulting engineering career based on servicing the land development industry in Edmonton. Over the years his engineering experience has expanded, including representing clients working in Epcor, TransAlta, Enmax, Fortis, Alberta Power, Ponoka, Lethbridge, Medicine Hat, and the Ft. McLeod service areas.

Al has proudly represented the industry on various boards and committees with agendas relating to electrical distribution, communication distribution, roadway lighting and decorative street lighting.
