KEYNOTE SPEAKER DAVID USHER

David Usher is a creative tour de force. As front man of internationally acclaimed rock band Moist, and as a solo artist, David has sold more than 1.4 million albums, won countless awards—including 5 Junos. Believing that creativity and creative success is a learnable skill that anyone can master, his unique and dynamic presentations employ music and video to show audiences the steps they can take to stimulate the creative process at home and at work.

When not making music, David is equally passionate about exploring the intersection of art, technology and data. His creative studio, Human Impact Lab, brings together artists, designers, game developers and interactive programmers to work on innovative social impact projects.
